4 Nov 12:09:13 - [info] Flows file : C:\Users\admin0\.node-red\flows.json
4 Nov 12:09:13 - [info] Creating new flow file
4 Nov 12:09:13 - [warn]

-----
Your flow credentials file is encrypted using a system-generated key.

If the system-generated key is lost for any reason, your credentials
file will not be recoverable, you will have to delete it and re-enter
your credentials.

You should set your own key using the 'credentialSecret' option in
your settings file. Node-RED will then re-encrypt your credentials
file using your chosen key the next time you deploy a change.
-----
